

Personal Liberty Laws.

Some of the apologists for the traitors who are endeavoring to dissolve the union tell us that if the states which have passed laws for the protection of the personal liberty of their citizens, will not repeal them, immediately, South Carolina and two or three other states will leave the union.

Wisconsin has a law giving all persons restrained of their liberty the benefit of the writ of *habeas corpus*, and a trial by jury. Our law was passed, not to prevent the return of fugitive slaves, but to protect freedom from the abuses of the fugitive slave law.

It is the duty of this state to throw the shield of its protection around every human being found within its borders. If any person is "claimed" as a fugitive from service under the laws of another state, the state is bound to use its sovereign power to ascertain whether the "claim" is a good one, according to the constitution. If it is, we have no alternative but to deliver the person claimed to the party to whom the service is due. Though it may be repugnant to our feelings, this is our duty, for so says the supreme law.

The present fugitive slave law will never be obeyed, though every personal liberty statute in the free states should be repealed. This is not because we are not willing to abide by the constitution, and do our duty under it, but because the fugitive slave law is an infamous, inhuman and unconstitutional act; it bribes the commissioner to convict the person claimed, by giving him double fees, if he gives up the person claimed; it allows an *ex parte* affidavit of the claimant, taken any where, to be received as evidence of ownership, while it denies to the person claimed the right of testifying in his own behalf; it provides for a trial before a single judge, wherein the liberty of a man is at stake, without a jury and without the right of appeal; it has penalties for all who will not aid in catching a runaway slave; and it fines a man for feeding the hungry and clothing the naked.

The fugitive slave law is all one side—it legislates for the claimant alone, and under it, if the state does not interfere, there is danger that some free man will be kidnapped and sold into slavery.

Now, we say this, for ourselves; we shall oppose the repeal of our personal liberty laws until three things are done—

1st. The menace against us to compel us to repeal our laws, must be withdrawn.—Wisconsin will not legislate under threats from South Carolina.

2d. The present fugitive slave law must be repealed, and one put in its stead, allowing the right of trial by jury, in the state where the person is claimed, is arrested; testimony to be delivered by witnesses in person; the right of appeal to a higher court, by either party; and the punishment of kidnappers.

3d. Congress must pass a law protecting all free citizens throughout the republic, against forcible seizure and outrage, on account of opinion upon any subject. We demand free speech every where.

Although our experience with the south is that they violate compromises whenever it is their pleasure or interest to do so, yet, if the above terms are acceptable, and laws passed accordingly, we would be in favor of the repeal of our personal liberty laws. We have had national legislation on one side long enough—we insist upon some guarantees upon the other side. Until this is done, we have no doubt our personal liberty laws will remain upon the statute book; and if South Carolina, who has never lost a slave in consequence of our legislation, chooses to go out of the union, in consequence of it—let her go, if she can.

LETTER FROM KANSAS.—The following is a letter from Gen. Pomeroy to Gov. Randall:

OFFICE FOR KANSAS RELIEF COV.,  
Atchison, K. T., Dec. 4th, 1860.  
God bless you, my dear governor. Your address to the people of Wisconsin of Nov. 22d, is just before me. Allow me to echo the sentiments of 30,000 destitute people in expressions of grateful acknowledgments.

In the struggles of our early history your people bore such a part as to forever endear them to our memories, but your generosity now to a suffering, earnest, toiling multitude who are to-day dying of hunger, is beyond all expressions of praise.

I shall be the happiest man in or out of the union, to be honored as the bearer of your offering to a worthy—but now destitute people.

Very constantly and truly,  
S. C. POMEROY.

Accounts from Kansas say that the famine is growing worse. The relief must be continued through the spring as well as the winter. It is probable that some action by the state legislatures must be had, if Congress does nothing.

Messrs. Washburne and Potter of this state voted against Boteler's resolution for the reference of so much of the president's message as relates to the condition of the country, to a special committee of one from each state. Thirty-six other republicans and two democrats voted with them.

THE BOGUS KANSAS WAR ENDED.—The Missouri Republican, (good border ruffian authority), publishes a letter, from the Missouri border, which says that "the three hundred armed outlaws who 'invaded the state,' took Fort Scott, and 'broke up the United States district court,' have dwindled down to certain threats of Montgomery and Jenkinson, and about sixteen vagabond abolitionists who lurked about Fort Scott for a few days before the court was to have been held."

Hon. G. W. Washburne, late state senator from Winnebago Co., is mentioned as a probable candidate for circuit judge for the 10th circuit.

Northern Concession.

Northern concession has done more to disturb the peace of this nation than anything else known to its history. It commenced with the formation of our government and entered largely into our national constitution. It gave the south the right to continue the slave trade to the year 1808. It has for seventy years permitted the owners of slaves to disturb the peace of northern communities, and corrupt the sentiment of the rising generation, by capturing fugitive men and carrying them back into slavery under the claim that they are property—chattel personal. It gave southern white men a representation in congress, not only for themselves but for three-fifths of their slaves. It bought Florida for the purpose of furnishing a market for surplus negroes. It bought Louisiana for the south and assigned one half of it to slavery in 1820, and the other half in 1854. It bought Texas, New Mexico and Utah with the blood and treasure of the north and dedicated them all to slavery. It has taxed laboring men of the north to support federal officers of the south. It has taken thousands of dollars from our national treasury, to pay southern congressmen for threatening the dissolution of the union.

And what have the south given us in return for these concessions but insolence and menace? Their demands have increased as the years have multiplied. They have had the power of the government under their control during three-fourths of its existence and defiantly tell us that the man who has been elected president by the American people, pursuant to the constitution, shall never rule over them.

They send men to congress to plot treason and civil war, and yet they not only go unharmed but walk the streets of Washington in arms with government officials and dine with the Chief Executive of the nation.

And yet they demand new concessions. Free speech must be crushed out. A censorship must be established. Northern men are no longer to be protected as American citizens in southern states. The laws of free states and free territories must be modified so as to recognize the right of property in slaves. Slavery must be declared to be equal to freedom or secession and revolution will be the consequence.

Men of the north will you grant these concessions? Will you permit your representatives at Washington to barter away your liberties and your constitutional rights with impunity? Will democrats of the north, who claim to stand by the constitution and the union, be frightened into these concessions by threats of revolution and the fear of broken banks? What the north needs most is courage, manhood and earnest devotion to principle, and the country will be safe. These high attributes of nature gave us our free institutions and they alone can preserve them. Death had no terror for Washington when the rights of men were in danger. The prospect of losing a splendid fortune could not change the purpose of Hancock. Are men of the present day less patriotic? Will men of north concede away all that was gained for humanity in that seven years war out of fear of meeting southern soldiers or the depreciation of southern stocks?

There are some who oppose republicanism for the same reason that the Ephesian silversmiths, who made shrines for Diana, opposed the doctrine of Paul—they think it will injure their business. But the false goddess came to naught, and so will these false patriots. Men will not hesitate if the south force the issue of war or concession upon us, none but cowards will seek to evade it.

LEX.

The key to Iverson's famous speech in the senate is that he wants to be re-elected to the senate.

The New Orleans Picayune says that Texas desires to be an independent republic, and will not join a southern confederacy. This will not suit South Carolina who means to rule the new Union of slave-holding states. If the cotton states go out of the present confederacy and try the experiment of a new Union, they will quarrel among themselves in six months.

The wrongs of Texas are dreadful to think of. The United States paid her \$10,000,000 for her Santa Fe territory, \$11,000,000 of public debt, and a hundred millions for a war with Mexico, got up for her benefit alone. Now, she proposes to coolly walk out of the Union and set up for herself!

Strooks.—State and railway stocks have declined in New York. Mo. G's sell at 61, Tennessee 64; N. Y. Central 52; Virginia 74.

WISCONSIN VS. NEW YORK.—It will be seen, by referring to the official returns of the late election, that twenty-two of the fifty-nine counties of New York polled a less number of votes than Rock county, while thirty-two counties polled a less number of republican votes than the "Herkimer" of Wisconsin. Even Genesee is far behind us in voting as she is in growing wheat. Verily, "Old Rock" may be considered as being pretty much out of the woods.

GETTING WOMEN.—Exchange in Chicago is selling at 10 per cent. The whole sale trade in grain and pork is at a stand still; but in a retail way business is just as lively as ever.

A HEARTLESS DESERTION.—Tuesday night just after the arrival of the eastern train at Madison, a baby was left at the door of Fred Oestergaard, the hair dresser, who lives near the depot. The wailings of the helpless little thing were heard in the night, and on Fred going out he found an infant just inside the gate, with a well filled carpet bag near it. Attached to the baby was a strip of a Chicago paper, on which was written "If taken good care of, it will be paid for, and your kindness rewarded."

SLAVERY IN NEBRASKA.—A negro man and woman, slaves, are advertised in the Nebraska City News, among other property, on execution, by the sheriff of Otoe county.

NEW YORK, Dec. 9.  
The Herald's Washington correspondent telegraphed last night that the committee of states will meet on Tuesday, perhaps Monday. South Carolina and Florida may not be represented. The chairman of the committee, Gov. Corwin of Ohio, is disposed to advance conciliatory measures. The feeling of conciliation is growing more and more prevalent. Gov. Seward is not disposed to yield, but he may be overwhelmed by the power of the incoming administration.

There are many matters of moment in abeyance, which the country at large may regard with satisfaction. There is more Union sentiment to-night among prominent classes than has been recently exhibited. Every one now hopes for the best, and better things will follow within a fortnight than the most ultra of either side anticipate.

It is rumored that Jeff Davis has received a despatch from Mr. Lincoln, the president-elect, saying that he (Mr. Lincoln) was preparing a letter for publication, defining his position on the question now dividing the different sections of the country, which will, it is said, give entire satisfaction to the south.

Secretary Cobb has completed his letter to the people of Georgia, and it will be made public in a day or two. He avows the most ultra sentiments, and avows the idea that any compromise or adjustment can be made with the south. His views are diametrically opposite to those of the president, so much so, indeed, that the moment they are published he will be compelled to retire from the cabinet.

It is rumored here that Governor Hicks of Maryland had decided to call the legislature together to consider the present national crisis.

Under a resolution adopted by the canal commissioners, the water is to be drawn out of the canal on Wednesday.

LEAVENWORTH, Dec. 7.  
Advices from Fort Scott to the 3d inst., are at hand. The federal troops were acting as posse comitatus to the marshal, and had arrested seven persons for being engaged in the late murders. No resistance was offered. The troops would move to Mound City on the 9th.

ELGIN, Ill., Dec. 7.  
The officers of the 8th of Elgin, by the advice of the citizens, allowed the rebels to go to protest to-day on account of the present high rates of gold and exchange. This will not affect the banking house of O. Davidson.

INDIANAPOLIS, Dec. 7.  
The Bloomington Bank at Bloomington, Ind., was thrown out by our banks to-day.

WASHINGTON, Dec. 9.  
While the most conservative congressmen freely express the belief that there is no prospect whatever of preventing other states from following the secession example of South Carolina, there are others who are hopeful that something may be done in the way of compromise, which may at least preserve the border slave states. Among the plans suggested by the latter class is the establishment of a line, by an amendment to the constitution, similar to the Missouri compromise. Other amendments have been submitted to the consideration of members from all sections of the country as they have had some degree of consideration, it may be mentioned that they provide:

1st. That the territory shall not be acquired otherwise than by treaty.

2d. The whole of the inhabitants of a territory numbering 20,000 shall have the right to elect all officers necessary for its government under the rules prescribed by an act of congress, and the legislature thereof may determine whether to recognize slavery or not during its territorial existence.

3d. Whenever any territory preparatory to its assuming a state sovereignty, having white inhabitants equal to the number required for a representative in congress, and having submitted its constitution to a vote of the people, the application for admission it shall be admitted into the union whatever may be its provisions in regard to slavery, upon an equal footing with the original states.

4th. Congress shall not interfere with slavery where it exists under the sanction of law, nor shall it prohibit the transportation of slaves from one slave state to another.

NEW YORK, Dec. 9.  
The barque Cora arrived at this port this A. M., in charge of prize crew from the U. S. frigate, Constellation. The Cora was captured off the coast of Africa, having 700 slaves on board, which were sent to Monrovia.

NEW YORK, Dec. 9.  
The Arctic expedition schooner, Resolute, was lost in August last. Capt. Hall however, was in good spirits and had already perfected arrangements for continuing his researches in the spring. The results already accomplished by the expedition are important. Bath or Birthers and Cumberland straits, Capt. Hall asserts to be mere inlets or bays, he having seen them in their entire extent.

The report of the failure of D. & A. Dows & Co., produce dealers, is entirely unfounded.

ALEXANDRIA, Dec. 9.  
Mr. Botte's letter on the subject of secession, is an extraordinary production. He declares he will have no part in the wickedness of secession, and thinks that Virginia will not secede. He says the position of South Carolina is plain, daring, flat-footed rebellion against and treason to the rest of the states. He thinks the only question involved in the South Carolina imbroglio is, whether it is worth while to keep her in the Union. That the federal laws should not be enforced in South Carolina, notwithstanding an ordinance of secession, &c., is bitter on the secession party.

NEW YORK, Dec. 10.  
Counterfeit fives on the Rockland County Bank, New York, are circulating here.

CHARLESTON, Dec. 9.  
There is great activity at Fort Moultrie. The defense every day is rendered stronger. The legislature will probably sit during the convention. News from Florida shows perfect unanimity in the state for secession and enthusiasm is increasing daily. Lincoln was burnt in effigy at Fernandina on Friday last.

WASHINGTON, Dec. 10.  
The President has just been assured from an authentic source that the authorities of South Carolina will make no resistance either to the collection of duties or to the possession of the forts guarding Charleston during the remainder of his administration.

HOUSE.—Mr. Hawkins gave additional reasons why he had asked to be excused from serving on the union select committee. Florida is a small state, but nevertheless is entitled to all the rights and immunities of the other states; she cannot be forced to remain in the union, the southern states are pledged to defend her in the event of attempted coercion. He was satisfied of unanimity prevailing that state to seek redress of its grievances in its own way and by means of other than congressional action, which latter have never accomplished a successful purpose. He regarded the component parts of the committee as

## LOCAL DEPARTMENT.

### Notice to Tax Payers.

Understanding that the idea prevails that coin will be demanded for state taxes, I hereby give notice that Wisconsin currency will be received by me from the town treasurers as well for state as other taxes.

J. M. BURGESS,  
County Treasurer.

For the Janesville Gazette.  
Hilton Academy.

The full term of this institution closed last Tuesday, the 4th inst. The last four days of the term were occupied in examining the different classes. On Tuesday evening the Orophilian and the Ladies' Literary Society held a joint session, which was well attended. Their exercises were quite satisfactory. After the session, the "Social" of the students was held in the Academy, and was numerously attended. This is a reunion of the old students and friends, with the teachers and members of the school of the past term.

There have been in attendance during the term, 203 students. Of these over 50 are now teaching in our public schools for the winter. Regular and thorough instruction in the principles and methods of teaching, were given to the Normal class, during the first eleven weeks. This class, numbering over 70, has been in session nearly the whole year. Some idea of the worth of its Normal department can be gained from the fact, that it has furnished in the past year, over 100 teachers for the private and public schools of the state. The constant aim of the school is to give the most thorough and complete academic instruction, at a cost within the reach of the poor but industrious young lady, or young gentleman.

Milton, Dec. 7th, 1860.

**NEW RAILROAD CAR.**—We had the satisfaction, a day or two since, of examining a new passenger car on the Chicago and Northwestern Railway, which seems to have reached the perfection of comfort. The car is warmed by registers, the heat to which is supplied by a stove in each end. The heat is carried between the floor of the car and an outside casing, and from a register under each seat, the car is warmed to suit the pleasure of the occupant. By this arrangement, the usual discomfort of traveling, cold feet, can be entirely averted, as the register can be opened or closed at will, and the feet placed over or near it, while there are a sufficient number of registers to accommodate all in the car. When the heat is not needed, the construction of the car is such that it can be passed off from the deck of the car without being used in the body of it, and in warm weather the registers can be used as ventilators.

This admirable arrangement is the invention of T. F. Strong, deputy superintendent of the road, and the car itself, which in the best eastern manufactory, was built at the shop of the company in Fond du Lac. We understand that a patent has been applied for, and the value of the invention is so evident, it must soon be introduced upon other roads. All who have tested it are warm in their commendations, as with it a car can be made as comfortable and pleasant as a sitting room or business office.

**SLEIGHING.**—To-day our streets have presented an unusually lively appearance. The snow which fell last night has brought out everything available in the shape of a sleigh, and the luxury of a ride on runners has been enjoyed by all who own, can borrow or hire the necessary facilities. A few inches more of snow would make capital sleighing, and exhibit in our streets every conceivable style of winter conveyance.

**IN NEW QUARTERS.**—Bornheim, the clothing man, has got into one of the new stores in Myers' new block, where his superior and large stock of goods are ready for examination and sale. Bornheim has made friends steadily since his residence in this city, and established a trade that is beneficial to his customers and remunerative to himself. Good goods at low prices always attract purchasers, and he has fully succeeded in establishing a reputation that draws to his store a large custom.

**CHOICE TEAS.**—In these days, when the question "what shall we eat and drink?" is a matter that interests every one, a satisfactory solution of the inquiry will be received with gratification by all. Ballou, at his new grocery store in Pease's new block, will bear upon this point a strict interrogation. He has every thing required in a first class grocery store, either for a luxury or a necessity. Among his other articles, he has some choice teas which we know have passed a critical judgment, and which are worthy the attention of house-keepers. Ira Justin, jr., whom every body knows, is his chief assistant, and deals out a mammoth codfish or a dollar's worth of dried peaches as naturally as he used to sell clothing or collect taxes. With such goods as the store is filled with, and with Ballou and Justin to sell them, a constant replenishment will be necessary to keep up the stock.

**NEW MILLINERY.**—Miss Reynolds has a new stock of millinery for the benefit of her customers. Besides the style and quality of her goods, her work meets the approval of her friends, and she is well entitled to the large share of patronage given to her shop.

**A LARGE WANT.**—McKay & Bro. advertise that they want \$50,000 of Illinois currency. In exchange for the currency they have a stock of goods every body wants. This is reducing the rate of exchange, of which we hear so much now-a-days, to par, and the consequence will be lively times at the store of "the brothers." See their advertisement.

## LOCAL DEPARTMENT.

### Notice to Tax Payers.

Understanding that the idea prevails that coin will be demanded for state taxes, I hereby give notice that Wisconsin currency will be received by me from the town treasurers as well for state as other taxes.

J. M. BURGESS,  
County Treasurer.

For the Janesville Gazette.  
Milton Academy.

The fall term of this institution closed last Tuesday, the 4th inst. The last four days of the term were occupied in examining the different classes. On Tuesday evening the Orophilian and the Ladies' Literary Society held a joint session, which was well attended. Their exercises were quite satisfactory. After the session, the "Social" of the students was held in the Academy, and was numerously attended. This is a reunion of the old students and friends, with the teachers and members of the school of the past term.

There have been in attendance during the term, 203 students. Of these over 50 are now teaching in our public schools for the winter. Regular and thorough instruction in the principles and methods of teaching, were given to the Normal class, during the first eleven weeks. This class, numbering over 70, has been in session nearly the whole year. Some idea of the worth of its Normal department can be gained from the fact, that it has furnished in the past year, over 100 teachers for the private and public schools of the state. The constant aim of the school is to give the most thorough and complete academic instruction, at a cost within the reach of the poor but industrious young lady, or young gentleman.

Milton, Dec. 7th, 1860.

**NEW RAILROAD CAR.**—We had the satisfaction, a day or two since, of examining a new passenger car on the Chicago and Northwestern Railway, which seems to have reached the perfection of comfort. The car is warmed by registers, the heat to which is supplied by a stove in each end. The heat is carried between the floor of the car and an outside casing, and from a register under each seat, the car is warmed to suit the pleasure of the occupant. By this arrangement, the usual discomfort of traveling, cold feet, can be entirely averted, as the register can be opened or closed at will, and the feet placed over or near it, while there are a sufficient number of registers to accommodate all in the car. When the heat is not needed, the construction of the car is such that it can be passed off from the deck of the car without being used in the body of it, and in warm weather the registers can be used as ventilators.

This admirable arrangement is the invention of T. F. Strong, deputy superintendent of the road, and the car itself, which in beauty of finish would be creditable to the best eastern manufactory, was built at the shop of the company in Fond du Lac. We understand that a patent has been applied for, and the value of the invention is so evident, it must soon be introduced upon other roads. All who have tested it are warm in their commendations, as with it a car can be made as comfortable and pleasant as a sitting room or business office.

**SLIGHING.**—To-day our streets have presented an unusually lively appearance. The snow which fell last night has brought out everything available in the shape of a sleigh, and the luxury of a ride on runners has been enjoyed by all who own, can borrow or hire the necessary facilities. A few inches more of snow would make capital sleighing, and exhibit in our streets every conceivable style of winter conveyance.

**IN NEW QUARTERS.**—Bornheim, the clothing man, has got into one of the new stores in Myers' new block, where his superior and large stock of goods are ready for examination and sale. Bornheim has made friends steadily since his residence in this city, and established a trade that is beneficial to his customers and remunerative to himself. Good goods at low prices always attract purchasers, and he has fully succeeded in establishing a reputation that draws to his store a large custom.

**CHOICE TEAS.**—In these days, when the question "what shall we eat and drink," is a matter that interests every one, a satisfactory solution of the inquiry will be received with gratification by all. Ballou, at his new grocery store in Pease's new block, will bear upon this point a strict interrogation. He has every thing required in a first class grocery store, either for a luxury or a necessity. Among his other articles, he has some choice teas which we know have passed a critical judgment, and which are worthy the attention of house-keepers. In Justin, jr., whom every body knows, is his chief assistant, and deals out a mammoth codfish or a dollar's worth of dried peaches as naturally as he used to soil clothing or collect taxes. With such goods as the store is filled with, and with Ballou and Justin to sell them, a constant replenishment will be necessary to keep up the stock.

**NEW MILLINERY.**—Miss Reynolds has a new stock of millinery for the benefit of her customers. Besides the style and quality of her goods, her work meets the approval of her friends, and she is well entitled to the large share of patronage given to her shop.

**A LARGE WANT.**—McKey & Bro. advertise that they want \$50,000 of Illinois currency. In exchange for the currency they have a stock of goods every body wants. This is reducing the rate of exchange, of which we hear so much now-a-days, to par, and the consequence will be lively times at the store of "the brothers." See their advertisement.

**EARNINGS OF THE M. & M. R. R.**—The following is a comparative statement of the earnings of this road for the month of November:

Freight	1860.	1859.
Passenger	\$20,485 01	\$20,187 77
Freight	15,475 58	16,457 73

For the Janesville Gazette  
Milton Academy.

The fall term of this institution closed last Tuesday, the 4th inst. The last four days of the term were occupied in examining the different classes. On Tuesday evening the Orophilian and the Ladies' Literary Society held a joint session, which was well attended. Their exercises were quite satisfactory. After the session, the "Social" of the students was held in the Academy, and was numerously attended. This is a reunion of the old students and friends, with the teachers and members of the school of the past term.

There have been in attendance during the term, 203 students. Of these over 50 are now teaching in our public schools for the winter. Regular and thorough instruction in the principles and methods of teaching, were given to the Normal class, during the first eleven weeks. This class, numbering over 70, has been in session nearly the whole year. Some idea of the worth of its Normal department can be gained from the fact, that it has furnished in the past year, over 100 teachers for the private and public schools of the state. The constant aim of the school is to give the most thorough and complete academic instruction, at a cost within the reach of the poor but industrious young lady, or young gentleman.

Milton, Dec. 7th, 1880.

NEW RAILROAD CAR.—We had the satisfaction, a day or two since, of examining a new passenger car on the Chicago and Northwestern Railway, which seems to have reached the perfection of comfort. The car is warmed by registers, the heat of which is supplied by a stove in each end. The heat is carried by the floor of the car and an outside casing, and from a register under each seat, the car is warmed to suit the pleasure of the occupant. By this arrangement, the usual discomfort of traveling, cold feet, can be entirely averted, as the register can be opened or closed at will, and the feet placed over or near it, while there are a sufficient number of registers to accommodate all in the car. When the heat is not needed, the construction of the car is such that it can be passed off from the deck of the car without being used in the body of it, and in warm weather the registers can be used as ventilators.

This admirable arrangement is the invention of T. F. Strong, deputy superintendent of the road, and the car itself, which in beauty of finish would be creditable to the best eastern manufactory, was built at the shop of the company in Fond du Lac. We understand that a patent has been applied for, and the value of the invention is so evident, it must soon be introduced upon other roads. All who have tested it are warm in their commendations, as with it a car can be made as comfortable and pleasant as a sitting room or business office.

SLEIGHING.—To-day our streets have presented an unusually lively appearance. The snow which fell last night has brought out everything available in the shape of a sleigh, and the luxury of a ride on runners has been enjoyed by all who own, can borrow or hire the necessary facilities. A few inches more of snow would make capital sleighing, and exhibit in our streets every conceivable style of winter conveyance.

IN NEW QUARTERS.—Bornheim, the clothing man, has got into one of the new stores in Myers' new block, where his superior and large stock of goods are ready for examination and sale. Bornheim has made friends steadily since his residence in this city, and established a trade that is beneficial to his customers and remunerative to himself. Good goods at low prices always attract purchasers, and he has fully succeeded in establishing a reputation that draws to his store a large custom.

CHOICE 1848.—In these days, when the question "what shall we eat and drink," is a matter that interests every one, a satisfactory solution of the inquiry will be received with gratification by all. Ballou, at his new grocery store in Pease's new block, will bear upon this point a strict interrogation. He has every thing required in a first class grocery store, either for a luxury or a necessity. Among his other articles, he has some choice teas which we know have passed a critical judgment, and which are worthy the attention of house-keepers. Ira Justin, jr., whom every body knows, is his chief assistant, and deals out a mammoth codfish or a dollar's worth of dried peaches as naturally as he used to sell clothing or collect taxes. With such goods as the store is filled with, and with Ballou and Justin to sell them, a constant replenishment will be necessary to keep up the stock.

NEW MILLINERY.—Miss Reynolds has a new stock of millinery for the benefit of her customers. Besides the style and quality of her goods, her work meets the approval of her friends, and she is well entitled to the large share of patronage given to her shop.

A LARGE WANT.—McKey & Bro. advertise that they want \$50,000 of Illinois currency. In exchange for the currency they have a stock of goods every body wants. This is reducing the rate of exchange, of which we hear so much now-a-days, to par, and the consequence will be lively times at the store of "the brothers." See their advertisement.
